"IT'S WHAT YOU FEED THEM"

Eckloff Specialty Creep HN210

A complete feed for growing and developing beef

Eckloff custom creep. A few years ago a dealer of ours "Robin Rutt" approached us and requested we make a creep feed for Ward Eckloff... Of course we were interested, So together we put together a sweet creep feed that is loaded with beet pulp and fats with good energy value to get these calves going out on pasture and give them some bloom yet not get them too fat... Needless to say there has been such a huge demand in the Kearney Nebraska area that we had to make it available to everyone.
